Each school review generates a number of key improvement strategies to inform continuous improvement in all state schools. The next steps are...

- ➡ Build consistency of planning, assessment, moderation and reporting through quality assurance processes.
- ➡ Build teachers' capability in understanding, selecting and applying the appropriate school-identified pedagogical approaches to meet the needs of all students.
- ➡ Further develop all staff knowledge, understanding and application of the full breadth of the Australian Curriculum to build capabilities in developing locally relevant and challenging learning experiences.
- ➡ Further develop school-wide shared expectations and staff capability regarding the planning, documentation and implementation of differentiated practices to meet the learning needs of the full range of students.
- ➡ Further develop the instructional leadership skills of leaders and teachers to support and monitor the implementation of school priorities.
